

Techsoft Group, based in Atlanta, Georgia, has been providing flexible IT solutions for 10 years. **Techsoft** works with clients to define, implement, and manage a broad range of technologies across multiple platforms, systems, and networks.

CORE SERVICES

Our core competencies encompass four primary areas with a variety of services within each.

Information Technology and Informatics

- ◆ Project Management
- ◆ System Architecture
- ◆ Business Analysis
- ◆ Software Development
- ◆ Configuration Management
- ◆ Technical Writing
- ◆ 508 Compliance
- ◆ Application Architecture
- ◆ Information Security
- ◆ Helpdesk
- ◆ Software Testing
- ◆ Deployment and Training
- ◆ Instructional Design
- ◆ Web Content Development and Administration

Data Management and Analysis

- ◆ Statistical Analysis/SAS/SUDAAN
- ◆ Data Modeling
- ◆ Data Warehousing
- ◆ Documentation Management
- ◆ Cataloging

Partnership Development and Management

- ◆ Creation of Partner Coalitions
- ◆ Communications and Collaboration
- ◆ Establishment and leadership of working groups
- ◆ Organizational development and design
- ◆ Conference and meeting planning and support

Scientific Evaluation and Technical Assistance

- ◆ Scientific development of tools and frameworks
- ◆ SAS and SPSS
- ◆ Functional Subject Experts
- ◆ Epidemiologists
- ◆ Statisticians/Biostatisticians

DBE**

Certified Georgia Disadvantaged Business Enterprise (DBE)

MAJOR CLIENTS

Techsoft's client base includes sectors in **Government, Medical, Engineering, Financial Services, Technology, and more.**

- Northrop Grumman Information Technology
- Pfizer (*through Client Associated Businesses, Inc.*)
- Medimmune, Inc.

CONTRACTS

CDC INFORMATION TECHNOLOGY SUPPORT (CITS)

Techsoft is a sub-contractor to Northrop Grumman on the Centers for Disease Control and Prevention (CDC) CITS seven-year, half-billion dollar contract. The contract was awarded to Northrop Grumman and its partners to provide the CDC with a vehicle for the ongoing provision of a broad array of information technology (IT) services to support the agency's enterprise, Centers/ Institutes/Organization IT initiatives, and public health mission.

Techsoft continues to be a significant contributor to CDC initiatives such as CDC's research, bio-terrorism preparation and response, the Global HIV/AIDS Program, and the Public Health Information Network (PHIN).

Centers for Disease Control and Prevention (CDC) experience includes:

OFFICE OF THE DIRECTOR (OD)

- Office of Workforce and Career Development (OWCD)

COORDINATING CENTER FOR INFECTIOUS DISEASES (CCID)

- National Center for HIV/AIDS, Viral Hepatitis, STD and TB Prevention (NCHHSTP)
- National Center for Immunization and Respiratory Diseases (NCIRD)

COORDINATING CENTER FOR HEALTH INFORMATION AND SERVICES (CCHIS)

- National Center for Health Marketing (NCHM)
- National Center for Health Statistics (NCHS)
- National Center for Public Health Informatics (NCPHI)
 - ◆ Division of Informatics Shared Services (DISS)
 - ◆ Division of Integrated Surveillance Systems and Services (DISSS)
 - ◆ Division of Knowledge Management (DKMS)
 - ◆ Division of Alliance Management and Consultation (DAMC)

COORDINATING CENTER FOR ENVIRONMENTAL HEALTH & INJURY PREVENTION (CCEHIP)

- National Center for Environmental Health (NCEH)
- National Center for Injury Prevention and Control (NCIPC)

Techsoft
Delivers!

Projects on time
and within budget

DATA RECEIPT AND TRANSFORMATION SERVICES (DART)

Techsoft was a sub-contractor on this five-year Federal GSA contract. One of CDC's overall missions is to advance its capabilities to detect and respond to the earliest warning signs that a significant health event is occurring and to obtain timely status regarding preparedness and response efforts. To accomplish this mission, CDC created the Public Health Information Network (PHIN) initiative and multiple data warehousing efforts, including BioSense, to support the detection and monitoring, reporting, data analysis, knowledge management, alerting, and response.

The services built within the PHIN framework provide for information exchange based on common data standards that provide secure and reliable data. These services include data acquisition, data receipt and transformation, and data mining.

ENTERPRISE INFORMATION TECHNOLOGY AND INFRASTRUCTURE TECHNICAL SERVICES (EITITS)

Techsoft was a sub-contractor on this five-year Federal GSA contract. The EITITS contract supports several web and scientific projects at the CDC. EITITS projects handle new requests from the different CDC centers/divisions/branches/sections by providing different solutions and storing their content. EITITS supports the CDC intranet and the CDC website.

COUNTERMEASURE AND RESPONSE ADMINISTRATION (CRA)

Techsoft is a sub-contractor on this Federal GSA contract. CRA supports CDC's cross-jurisdictional reporting needs by providing flexible methods for accepting data from other systems or by extracting summarized data. The system is a tool public health partners at the state and local levels may choose to manage countermeasure and response administration activities within their jurisdictions

PFIZER NEURO-SCIENCES THERAPEUTIC CONTRACT

Techsoft is a sub-contractor on this major contract to Pfizer Pharmaceuticals, Inc. Techsoft performs clinical SAS programming services, Phases III and IV, in the Research and Development (R & D) division.

MEDIMMUNE CONTRACT

Techsoft is a prime contractor to MedImmune and provides SAS programming and configuration services to support MedImmune's Biologics License Application for Motavizumab, UNIX administration, and SQL/COGNOS development services.
